

T14 Radio Style LED – Dimmable LED

It looks exactly the same as a classic Radio Style Tube T14 but our LED version gives better quality light (180 luminous flux versus 120) and *requires 90% less energy* than its T14 incandescent counterpart. Plus they do not release heat or warm while burning *so they keep your room cooler!*

LED bulbs use only 10% of the energy required by traditional bulbs - 2 watts is equivalent to a 25-watt incandescent bulb.

Estimated 15,000 life hours - guaranteed by manufacturer to last a minimum of 3 years.

- T14 antique filament LED bulb
- E26 medium base (standard Edison retrofit works with any standard base socket)
- LED replacement of T14 or Radio Style incandescent bulb
- **DIMMABLE**
