- > UL approved

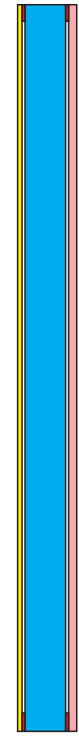

The LED shelf offers the same practicality of traditional shelves but with added stylish flare of LED lighting. The acrylic and durable aluminum base not only present a modern exterior, but are also the key design features behind the evenly distributed light throughout the entire LED shelf. All of our LED shelves come packed with super bright cool white LED lights, the LED shelf illuminates with a brilliant glow giving it a so called "floating effect". These professional LED shelves go great in any space or room, upgrade an office lobby, retail store, bar, or any other area with the futuristic look of LED shelving.
